FNB has policies and procedures to address data confidentiality, integrity and availability. We encourage all companies to review the following useful security tips to create and support a culture of security awareness.

- Control access to sensitive areas of the office.
- Ensure all company data and customer information is securely controlled.
- Change your password on a regular basis.
- Change your password immediately if you suspect it has been compromised in any way.

(continued on next page)

TREASURY MANAGEMENT

Business Online Banking

Multibank Reporting User Guide

- Educate staff about password confidentiality and reinforce this regularly.
- Check that all requests for information are genuine – and ignore any requests for bank account details and passwords, whether by phone or email.
- Ignore suspicious emails, consider deleting them unread – **and be very wary of opening attachments unless from a known source and of clicking on any links contained within an email.** Always cut and paste URL information into a new browser window.
- Keep your web browser and anti-virus applications up to date with security patches.
- Ensure account transaction reconciliation functions are performed utilizing segregation of duties processes and performed and reviewed timely.
- Frequently check and review systems and processes with your 'security hat' on.
- Review transaction activity and account information on a daily basis. FNB has several Treasury Management services such as Positive Pay that can provide additional tools to assist with the review.

PLEASE NOTE: A Business Email Compromise (BEC) is a form of phishing attack where a cyber-criminal impersonates an executive (often the CEO), and attempts to get an employee, customer, or vendor to transfer funds or sensitive information to the phisher.

Unlike traditional phishing attacks, which target a large number of individuals across a company, BEC attacks are highly focused. Cyber criminals will scrape compromised email inboxes, study recent company news, and research employees on social media sites in order to make these email attacks look as convincing as possible. This high level of targeting helps these email scams to slip through spam filters and evade email whitelisting campaigns. It can also make it much, much harder for employees to recognize the email is not legitimate. An email message request for payment to be sent outside the company should ALWAYS be verified OUTSIDE of the email channel to ensure it is a legitimate request. Do not verify the request via email as the verification may be coming from the fraudster.

If you see anything unusual immediately contact Treasury Management Support at (866) 750-5298.

Everyone in your business needs to remember that skilled fraudsters will resort to all manners of subtlety and guile to trick people into disclosing valuable information.

For additional security updates and information, visit our website at www.fnb-online.com and click on the [Security option on the top right of the screen.](#)

MULTIBANK REPORTING FOR ACCOUNTS

Multibank Reporting (MBR) provides corporate users access to more robust information, such as balance history, the ability to print ad-hoc account statements, the ability to import and export data in a BAI2 formatted file and to graphically display cash position for the last 30 days.

HOME SCREEN

From the Home Screen, select the account that you want to view in the Multibank Reporting screen

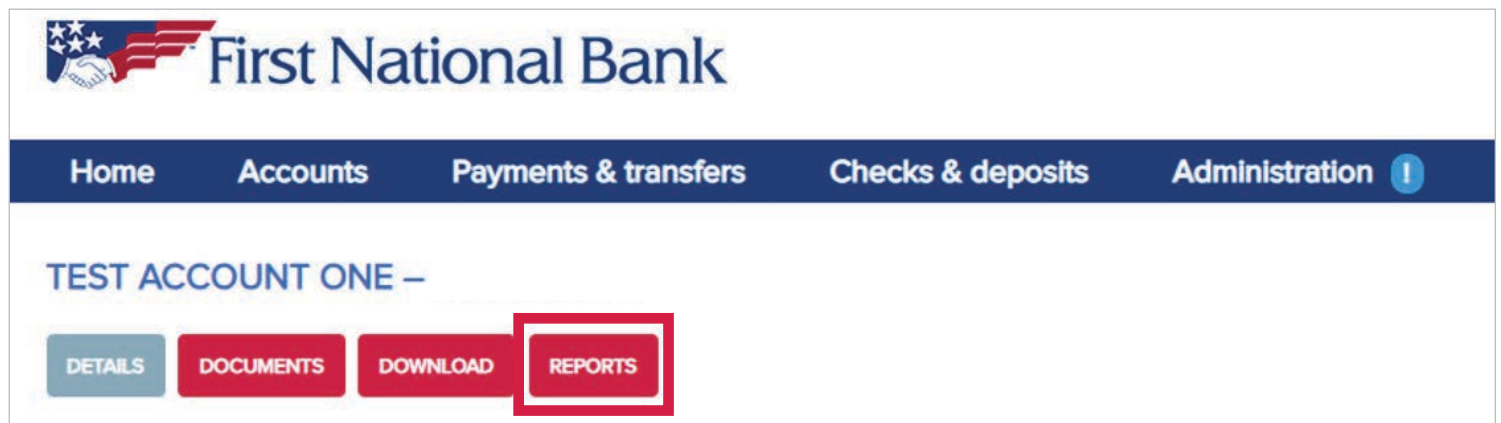

The screenshot shows the First National Bank Home Screen. At the top is the bank logo and name. Below is a navigation bar with tabs: Home, Accounts, Payments & transfers, Checks & deposits, and Administration. The 'Accounts' tab is selected. The main content area displays a list of accounts with their available balances and a 'RECENT' dropdown menu. To the right is a 'Pay or transfer' menu with options: INTERNAL, ACH, ACH IMPORT, WIRE, WIRE IMPORT, and BILL PAY, each with a 'SHOW' dropdown.

Account Name	Available balance	RECENT
NEW TEST ACCOUNT	\$200.00	RECENT ▼
CHECKING 9245	\$200.00	RECENT ▼
CHECKING 2702 TWO	\$200.00	RECENT ▼
CHECKING 9253	\$200.00	RECENT ▼

- INTERNAL SHOW ▼
- ACH SHOW ▼
- ACH IMPORT SHOW ▼
- WIRE SHOW ▼
- WIRE IMPORT SHOW ▼
- BILL PAY SHOW ▼

Select the **Reports** tab

The screenshot shows the First National Bank Home Screen with the 'TEST ACCOUNT ONE' page selected. Below the navigation bar, there are four tabs: DETAILS, DOCUMENTS, DOWNLOAD, and REPORTS. The 'REPORTS' tab is highlighted with a red border.

Saved Searches

Saved Searches allows the search criteria most commonly used to be saved for quick access in future searches.

TREASURY MANAGEMENT

Select the BAI2 transactions to be exported:

All of the BAI2 Transaction Codes will be listed in the right-side box.

Click the Select All << button to move all codes to the left-side box.

Highlight the desired code(s) and click the > button to add the desired codes to the right-side box.

Tip: If selecting multiple codes, click to select the first code then hold the Ctrl button on your keyboard as you select the remaining desired codes. Once all codes are selected click the > button to add the desired codes to the right-side box.

Select **Save Search Criteria**.

A window will display requesting the Search Name. Enter the desired name of your search criteria. (Ex. Checks Paid)

Click **OK**

A message will display confirming the search was successfully saved to the database.

Future searches will allow you to select your Saved Searches to view the transactions for the Date Range selected.

Note: Selecting the black X to the right of the Saved Searches dropdown menu deletes the selected saved search

CASH POSITION

Cash Position will display various historical graphs for the accounts selected. The Cash Position will display up-to the prior 30 days.

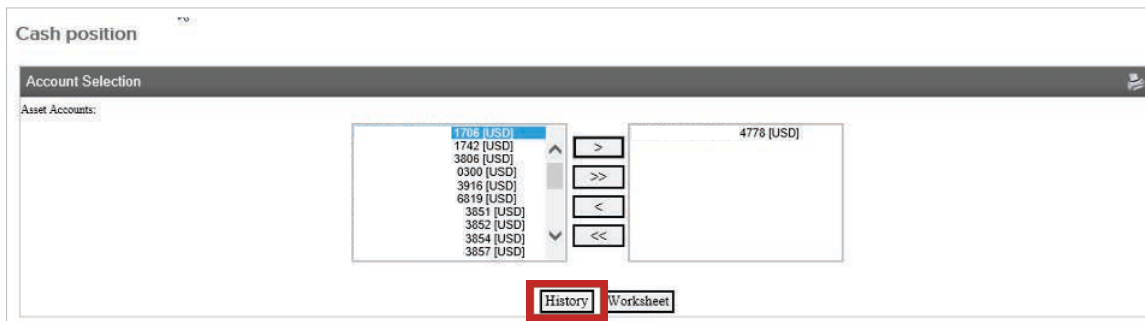

Select the **Accounts** tab.

Select **Cash Position**.

Select the account(s) to be viewed. Click the Select All >> button to select all accounts or the > button to add specific accounts.

Select **History** to view Charts or List. Worksheet is explained on page 19.

When **Chart** is selected, based on the number of calendar days selected and the type of graph (Column, Line or Area) this determines the type of graph and the history span that is displayed.

Click the green arrow to update your selection and the chart will display.
