Wire Manager User Guide

FNB has policies and procedures to address data confidentiality, integrity and availability. We encourage all companies to review the following useful security tips to create and support a culture of security awareness.

- Control access to sensitive areas of the office.
- Ensure all company data and customer information is securely controlled.
- Change your password on a regular basis.
- Change your password immediately if you suspect it has been compromised in any way.
- Educate staff about password confidentiality and reinforce this regularly.
- Check that all requests for information are genuine – and ignore any requests for bank account details and passwords, whether by phone or email.
- Ignore suspicious emails, consider deleting them unread – **and be very wary of opening attachments unless from a known source and of clicking on any links contained within an email.** Always cut and paste URL information into a new browser window.
- Keep your web browser and anti-virus applications up to date with security patches.
- Ensure account transaction reconciliation functions are performed utilizing segregation of duties processes and performed and reviewed timely.
- Frequently check and review systems and processes with your 'security hat' on.
- Review transaction activity and account information on a daily basis. FNB has several Treasury Management services such as Positive Pay that can provide additional tools to assist with the review.

PLEASE NOTE: A Business Email Compromise (BEC) is a form of phishing attack where a cyber-criminal impersonates an executive (often the CEO), and attempts to get an employee, customer, or vendor to transfer funds or sensitive information to the phisher.

Unlike traditional phishing attacks, which target a large number of individuals across a company, BEC attacks are highly focused. Cyber criminals will scrape compromised email inboxes, study recent company news, and research employees on social media sites in order to make these email attacks look as convincing as possible. This high level of targeting helps these email scams to slip through spam filters and evade email whitelisting campaigns. It can also make it much, much harder for employees to recognize the email is not legitimate. An email message request for payment to be sent outside the company should ALWAYS be verified OUTSIDE of the email channel to ensure it is a legitimate request. Do not verify the request via email as the verification may be coming from the fraudster.

If you see anything unusual immediately contact Treasury Management Support at (866) 750-5298.

Everyone in your business needs to remember that skilled fraudsters will resort to all manners of subtlety and guile to trick people into disclosing valuable information.

For additional security updates and information, visit our website at www.fnb-online.com and click on the Security Center link at the bottom of the screen.

Wire Manager requires a higher level of security for sending wire transfers. The secondary (dual) approval function is performed by one user sending a wire transfer and a second user approving the wire transfer.

Note: Recurring transfers are available for approval on the effective date.

REVIEW WIRE TRANSFER (to approve a wire submitted by another user)

- The Home screen is displayed when you successfully access online banking. The screen contains a **Payments & transfers** section with a **Review** section.

The screenshot shows a 'REVIEW (8)' screen with a 'Wire' section. It contains a table with the following data:

Description	Reason	Amount
60 TEMPLATE EDIT	Review required	1.35
60 TEMPLATE EDIT	Review required	1.00
60 TEMPLATE EDIT	Review required	2.00
60 TEMPLATE EDIT	Review required	2.00
CERTIFICATE TESTING	Review required	1.00
DOMAIN TEST	Review required	1.50

At the bottom of the table are two buttons: 'APPROVE' and 'DISAPPROVE'.

- Clicking on the **Description** will launch a new window with a preview of the wire.
 - Once you have verified the details of the wire, select the **Approve** button to submit the wire or the **Disapprove** button to cancel the wire transfer. **Close** will exit the wire transfer screen.

OR

- Select the corresponding checkbox and click the **Approve** button to submit the wire or the **Disapprove** button to cancel the wire transfer.
 - A green confirmation screen will display, similar to the one below.

The screenshot shows a green confirmation message: "Your wire transfer has been approved: RECURRING 62".

OR

- Select the **Payments & Transfers** tab
- Select the **Wire** tab

The screenshot shows the online banking navigation menu. The 'Payments & transfers' tab is selected and highlighted. Underneath, the 'WIRE' option is selected and highlighted.
